appearance, his actual species is, as found in AGOTISquared's YouTube channel description, a "screen demon".

Personality

Although A.G.O.T.I tries to not be mean to people he just met (as shown in the first cutscene, where he is shown to be welcoming towards Boyfriend and Girlfriend, and in the second cutscene where he explains the nature of the void and it's purpose), he usually acts like a jerk and is a hothead who throws fists for not getting what he wants. This is either due to his naturally abrasive personality or due to his time being spent in the void. Although he is very prone to losing his temper, he does, to some extent, have some compassion for Solazar, his father and manager, as shown in his ending cutscene, as well as Nikusa, with whom he is close friends with. This compassion of his also extends to Tabi, who is another close friend of his as

usually found at the start of *Screenplay*.

- The other lesser-known reference in his songs is the start of the original Friday Night Funkin' song *Ugh*, it can be found in the middle of *Parasite* if you listen closely.
- The mod uses the **Friday Night Funkin': Mic'd Up** engine, which means there are charts for Noob, Expert and Insane difficulties, Lo-Fi and Hi-Fi versions of the songs, "power-ups" that change the chartings from the songs and much more. However, the difficulties are no longer available.
- A.G.O.T.I. would love to befriend **Whitty**, but he would be confused.
- The two cutscenes are references to two popular anime series. The first being a reference to *JoJo's Bizarre Adventure* while the second is a

follow this structure, SugarRatio is aware and claims that it was not his choice.^[14]

- Furthermore, SugarRatio has confirmed that any upcoming mods that he'll make in the future, such as the VS Solazar mod, would be original and unique, using new and innovative ideas that, up until now, have never been used before in a mod. For example, the VS Solazar mod will have Solazar be very calm and professional, and instead of gradually losing his temper like Whitty, he'll instead not only stay serene and peaceful, but he'll also adopt a more informal, casual appearance, which will be reflected in him tying his "hair" into a ponytail and taking off his jacket, as well as rolling up the sleeves of his shirt.
- It has been confirmed by SugarRatio that A.G.O.T.I. does not hate people who simp for

- A.G.O.T.I. would hate **Selever** due to his pre-teen spaz behaviour.^[16]
- A.G.O.T.I. and **Tabi** are canonically best friends.^[17]
- A.G.O.T.I.'s voice is a bass sound in **the SEGA Genesis'** soundfont.
- Vs. A.G.O.T.I Mod is currently the 20th most downloaded mod with over 250k downloads (as of May 31, 2021).
- A.G.O.T.I. is one of the antagonist's to hit his notes in the same way as Boyfriend without the player actually controlling him. (Normally the antagonist's notes just disappear once they hit, but with A.G.O.T.I. they glow just like Boyfriend's.).

reason is simply because BrightFyre added it into the mod, and most likely does not have any lore behind it.^[18] However,

SugarRatio provided the possible idea of Solazar giving A.G.O.T.I. a blessing to protect himself when he was young, leading to his ability to manipulate his surroundings.^[19]

- During the dialogue from the third round, A.G.O.T.I. vented that he was stuck in the void for years even though it was recently confirmed that he only spent 1 year trapped in the void. The most likely explanation for this mistake is that isolation has made him lose track of time.
- A.G.O.T.I. cries VHS films instead of actual tears.^[20]

• He can use his tentacles as extra limbs, so legs aren't his only movement option.

• A.G.O.T.I. appears to not do well in water.^[22]

• A.G.O.T.I.'s dialogue in A.G.O.T.I. may be a reference to SammyClassicSonicFan' famous quote where he says "YOU FRICKIN FRICKS", similar to how A.G.O.T.I. says "YOU FUCKING FREAKS".

• Sugarratio claims that the rage sprites for A.G.O.T.I. were by far the laziest ones he did so far.^[23]
